Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 8 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent # 5,743,596 to Chabanne.

Chabanne teaches an assembly comprising a front latch mechanism having a support plate (7) and a rear latch mechanism having a mounting plate (21a) and a pair of opposing front (19) and rear (21b) latch plates independently pivotally coupled to the mounting plate. Each of the pair of opposing front and rear latch plates selectively engage the rear slide rail. The assembly includes a release cam member (27) operatively coupled between the pair of opposing front and rear latch plates.

Allowable Subject Matter

Claims 1, 4-7 and 9 are allowed.

Response to Arguments

Applicant's arguments with respect to claim 8 has been considered but are moot in view of the new ground(s) of rejection.
